

Financial Assets, U.S. Nonfinancial Corporations
as percentage of total (fixed + financial) assets

Financial Assets and Liabilities, U.S. Nonfinancial Corporations
(dollars; natural log scale)

U.S. Corporations, 1947-2007

All figures are percentages of after-tax profits. Net borrowing = (net dividends + net productive investment) – after-tax profit

Figure 5.9 Net Investment as Percentage of Profit, U.S. Corporations
